UniplayCG Test Tone Â· Next: Â· Learn how to troubleshoot EMC quickly and easily
Lab - Troubleshooting Emissions | Min Zhang Â· How does a USB keyboard work?
Lab - Using a USB Keyboard with UniplayCG UniplayCG test signal The UniplayCG
test signal provides Internet access for a PC that cannot access an Ethernet or Wi-Fi
network. As soon as the signal is received, the connection to the network will be made
without entering a password. To troubleshoot the EMC issue, you need to Â· Open
UniplayCG's main menu and select "Settings" from the left menu. Â· Select "Test
Signal" from the left menu.
