ModAstro Free Download is a vedic astrology research application created for OpenOffice which will add a new menu within the host software. It allows you to quickly navigate between a multitude of natal charts and uses an online ephemeris. ModAstro Cracked Version offers a fast and intuitive

---

online ephemeris which may be used to help you find appropriate information regarding your birthchart. With ModAstro you may obtain any of the basic information of your natal chart (planet aspects, times, house aspects, etc.), but it also provides a lot of additional information. ModAstro allows you to generate a number of additional

---

options related to your natal chart by selecting the subject of interest.

Once the subject is selected, you may choose to generate a number of options by clicking on one of the 8 main subject groups. Besides the natal chart, ModAstro allows you to find information on the chart of your career, career goals, astrology lessons, life skills and life topics.

---

ModAstro is offered as a free open source application and can be downloaded for OpenOffice or Microsoft Office. Links Categories

This program is for use in OOo. The graphical user interface is designed to be as useful as possible. A large number of tabbed pages allow you to browse through different parts of the astrological calculation. Many pages are pre-computed. The benefit of this pre-computed nature is that

---

the pages won't be reloaded. The other big benefit is that you don't have to enter all of the info for the astrological calculation. All of the info is already entered. Simply select what astrological calculation you want to use and then select which charts you want to use. The menus will contain any new chart types that have been created. The
