1. 'Demon Destroyer Legend' "Remember the classic action game 'BlazBlue'? Well, 'Demon Destroyer Legend' is a successor of that. 'Demon Destroyer Legend' is a 3D action game. The point of the game is to defeat the powerful bosses of this world and gain more power. It is a fantasy action game, but it isn't as slow and it has combat moves as fast as a 2D action game. The characters can utilize an extensive move list and the maps have various designs. The story is interesting and rich in atmosphere. After the action parts, the story parts and the ranking system, the dungeons and bosses in the game are really unique. The character customization system is enough. Although it is a fantasy action game, it has enough for fans of action games. If you like to play fantasy action games, be sure to experience 'Demon Destroyer Legend'. It is a good game. If you are a fan of 'BlazBlue', you will like the game." "The first thing I have to say is that this game was very fun when I tried it on Normal difficulty. When I played on normal it was very easy, but I felt it had a lot of content. I played all of the game except for the end of the second main story with the characters (6 hours, I think) and the last boss battle (the first boss battle). There were a lot of map changes and boss battles with a lot of variety. I ended up with a massive amount of money and new god weapons. I had a lot of fun, and I'm glad to have finished it. I think that it could be a little easier, but it was a great experience, especially on Normal difficulty. I don't have much else to say except that it was very good." "The graphics were good. The characters had a lot of unique attack animations. The sound effects for the attacks were good. The characters were variously cute and even though they were a little life-like, you could tell a lot of effort went into their design. I could hear the enemies attacking in the background as I played the game, which was nice. I had a lot of fun playing the game." "The game is fun in every aspect! The high-quality graphics.
